

CLT1

The Revolution in A/C Diagnostics

The only hand held tool that allows you to test externally controlled Direct Drive (Clutchless) Compressors.

**CAN YOU
SURVIVE
WITHOUT
IT?**

The new External Controlled Compressor dominates the market.

More than 10m cars in Europe are fitted with an external controlled compressor. With a user-friendly manual, the CLT1 will help diagnose failure and save you time and money.

Contact Compressortech for training, presentation and to order.

**REMANUFACTURED
AUTOMOTIVE COMPRESSORS**

Vehicle manufacturers' test equipment will not carry out a full diagnostic test... only the CLT1 will!

The compressor's valve is regulated by the Engine Management System, and these signals are hard to measure

The CLT1's unique diagnostic functions include:

LED "OC" indicator, showing:

- Poor control valve connection
- Control valve complete interruption
- Control valve with short-circuit

LED "OL" indicator, showing:

- Too high power consumption of the valve

Cars fitted with external controlled compressors:

BMW

| | |
|----------|--------|
| 3-Series | 01.05> |
| 5-Series | 07.03> |
| 7-Series | 11.01> |

Mercedes-Benz

| | |
|---------|--------|
| A-Class | 09.04> |
| B-Class | 03.05> |
| C-Class | 05.00> |
| CLK | 06.02> |
| E-Class | 03.02> |
| S-Class | 10.98> |
| M-Class | 02.98> |

Toyota

| | |
|---------------|--------|
| Yaris | 04.99> |
| Yaris Verso | 11.99> |
| Corolla Verso | 03.04> |

VAG

| | |
|------------------|--------|
| Audi A3 | 05.03> |
| Audi A4 | 11.00> |
| Audi A6 | 01.97> |
| VW Golf V and VI | 10.03> |
| VW Jetta | 08.05> |
| VW Caddy III | 03.04> |
| VW Touran | 02.03> |
| Skoda Octavia | 06.04> |
| Seat Toledo | 10.04> |
